Mrs. W. Ray Patterson will spend a week with her parents in Winchester. Mr. Patterson returned home Monday afternoon.

Charles S. Powell, of Richmond, President of the Owingsville Telephone Co., came Saturday on business connected with the Exchange.

Mr. Powell has but recently returned from a trip to South America, and talks entertainingly of his experiences.

On account of the heavy rain, Hillsboro mail carrier was not able to make his return trip Friday. On Saturday he will return with the Bethel mail.

Thos. Greenwade was sentenced to one year in the penitentiary at Mt. Sterling last week on a charge of seducing Miss Eva Jackson.

This case was transferred from Bath to Montgomery Circuit Court.

Henry Reed, an industrious colored man, died at 6 o'clock Thursday morning of consumption; buried Saturday at the colored cemetery.

He contracted a deep cold last year while at work, which terminated in consumption.

John A. Ramsey is contracting for material, and will shortly begin remodeling the Owingsville House. It is probable that the Owingsville Banking Co. will make some improvement on their part of the hotel building.

Mrs. Minnie Albert, aged 33 years, died of lung trouble at her home at Farmers at 7 o'clock Monday morning. She leaves four children—two boys and two girls. She was a daughter of Judge H. H. Krug, who formerly lived in this town.

Known Here.—Lieut. Fred L. Wilson, of Lexington, has been appointed Treasurer of Antique Province, Panay Island, Philippines.

Lieut. Wilson is remembered by many here as being the Captain of Co. E, 2d Reg. K. S. G., which company was here during the toll-gate troubles in 1897.

There will be services at the Christian Church next Sunday at 11 a. m. and 7:30 p. m. Morning subject: "The Great Commission—What?" evening subject: "The Great Commission—How?" Let all attend and enjoy these two services. Remember the case of "Thomas and Toss." B. Howe, Minister.

GAVE UP HIS WIFE.—Rev. J. T. Rhoden, of South Portsmouth, Ky., a Methodist minister, married sixteen-year-old Mattie M. Buckner thirty years ago at Portsmouth, O. Seven children were born to them. Some two years ago Mrs. Rhoden and John F. Turner, aged 25, fell in love with each other, and their meetings came to the husband's knowledge. Rev. Rhoden was told by his wife that she loved Turner. The husband then secured a divorce and the ex-wife married Turner. All was done in a friendly manner.

MONTGOMERY PRIMARY.—In the Montgomery Co. Democratic primary election Friday only three nominations were contested for: C. F. Thomas defeated Henry Watson 301 votes for County Attorney; the vote for Jailor was Wm. Sledd 494, Andrew James 408, J. W. Lockridge 231, and W. T. Stokely 81. Sledd's plurality being 86; for School Superintendent it was Miss Mary G. Anderson 551, M. J. Goodwin 487, L. S. Barber 220. Miss Anderson's plurality being 114.

It is said that the Goebels force were beaten everywhere.

ROBERTS DAUGHTERY.—On next Tuesday evening, April 30, Mr. John G. Roberts, of Mt. Sterling, and Miss Nora Daugherty, of Flemingsburg, will be married at the latter place. Mr. Roberts is one of the best-known young men in this section, and is very popular. Miss Daugherty has many relatives and friends here, and is a very charming young lady.

COMMITTED SUICIDE.—A news item in the dailies says Mary Porter committed suicide in a disorderly house at Knoxville, Tenn., where she was taken by a young man, who, it is claimed, took her from her husband, Clarence Stanford, who secured a divorce from her. Mary was a daughter of Mrs. Wm. Porter (nee Phoebe Johnson), of Mt. Sterling, and was partly reared in this town.

SMALL-POX SCARE.—There is small-pox at Morehead and the authorities there placed the town under quarantine. Our friend George P. Jones was there and in company with others slipped out of town. George notified him that if he did not leave they would cause Mr. Atchison's drug store and residence to be quarantined. Mr. Jones left.

MORE CISTERN.—The Town Council has under consideration the building of five or six fire cisterns in different parts of the town. It is expected that the necessary funds will be appropriated and contracts let at the next meeting of the council on the second Tuesday night in May. Orders have been given for 350 feet more fire hose, which is believed to be sufficient, if cisterns are properly distributed, to cover the main portions of the town in case of fire.

STEALING OUTLOOK.—Some years ago this office was much annoyed by somebody who had access to the mails stealing OUTLOOKS on their way to subscribers. The practice was stopped at once, and the mailmen are now very careful to handle the mail. We request every subscriber to exchange—entitled to receive THE OUTLOOK—notify us promptly when a copy of the paper fails to reach them. We are collecting evidence to make a complaint to the U. S. postal authorities to have the stealing stopped. It is very damaging to a newspaper's reputation for reliability in business methods to have subscribers deprived of the papers in that way.

LOUISVILLE TOBACCO MARKET.—By George R. Snyder, of the Stone Tobacco Warehouse Co.—April 19, 1901.—On account of the large amount of rejected and soft tobacco being thrown on the market we have had another week of irregular prices. There has been very little good to fine leaf on the breaks, and prices on these kinds are a few bids easier than they were a month ago. Where the low grades are in good order and have color there is active demand and very light rejections on this kind. The market is being cleared of a great deal of damaged, nondescript and rejected tobacco, and I believe when this class of tobacco is thoroughly cleaned out that we will have a more regular market on good-ordered tobacco of all grades. We had 75 hds. up on Friday and had but few rejections. Market closed the strongest of the week.

ELDER DAWSON WRITES.—King City, Mo., April 20th, 1901.—Dear Editor: "Howard's Mill" made some statements in last week's paper that I feel we as Americans should repudiate. While I don't approve altogether of Mrs. Nation's plan, still I think that a man who believes that "God will help us bear all burdens" should know more about his will. God said "thou feel" to the man who wanted to "eat, drink and be merry." He said—"for I judge no woman could have written such an article—that 'Mrs. Nation is destroying the most health-giving beverage of the world.' Now the wisdom of the medical world when it says that 'all beverages are injurious to the human system.' Surely there comes a cry from thousands of careworn wives, heart-broken mothers, and the ruins of once happy homes against this anything-but-life-giving beverage. And, again, God says: 'Wine is a mocker, strong drink is raging: and whoever is deceived thereby is not wise.' I endorse 'Howard's Mill' when he said: 'Be sure you thoroughly understand a thing before you talk about it.'"

E. B. DAWSON.

F. S.—I will come home next week (D. V.), but you will please publish this before I return.

Yours truly, E. D.

WINTER'S FREAKISH RETURN.—Spring came late and then did her duty in a sulky, half-hearted sort of way. Up to last Thursday the leaf and flower buds of the fruit trees had in the main only partially unfolded, though there was a sprinkling of fully expanded blossoms. On Thursday a few flakes of snow fell occasionally and a sprinkle of rain set in. On Friday it rained hard, changing to snow. On Saturday it snowed hard all day and froze a little at night. On Sunday it snowed all day and again froze a little at night. On Monday it snowed and sprinkled rain pretty much all day. Friday, Saturday and Sunday were three days worse than any experienced the past winter. At times the wind blow and with the driving snow made quite a blizzard. Sometimes the snow accumulated on the ground, again it melted as fast as it fell, and the water stood over the level ground and in the depressions. Considering the season it was one of the most gloomy of weather experiences. It is almost too much to expect that the fruit has escaped. Anyhow the blossoms that were fully blown must have been killed by the freezes, being wet. The tobacco plant beds, being protected by canvas and under snow at night, probably have fared very well. The early vegetable gardens are perhaps not seriously injured, though the germinated seeds of the more tender vegetables may be stunted in their growth.

PROVERBS OF THE CHINESE.—The Chinaman is not a dull-witted animal, as is evidenced by the following proverbs taken from Dr. Giles' "History of Chinese Literature," published by the Appletons: It is not the wine which makes a man drunk; it is the man himself. Better a dog in peace than a man in war. Every one gives a shove to the tumbling wall. Sweep the snow from your own doorstep. He who rides a tiger can not be hurt by the tiger. One does not slap at something and the next bark at him. One can't clap hands with one's palm. Draw your bow, but don't shoot. One more good man on earth is better than an extra angel in Heaven. Gold is tested by fire; man, by gold. Those who have not tasted the bitterness of life's bitterness can not appreciate the sweetest of life's sweets. Money makes a blind man see. Man is God upon a small scale. God is man upon a large scale. A near neighbor is better than a distant relation. Without error there could be no such thing as truth. TROUBLE IN THE OFFICE.—"Why is a woman like an umbrella?" asked the exchange editor. "Because she's made of ribs and attached to a stick," replied the information editor. "Why is?" "Wrong. Guess again." "Because she always has to be shut up when—" "Now! You fatigue me." "Because she stands in the hall and—" "Now! It's nothing about standing in the hall." "A woman is like an umbrella because nobody ever gets the right one. Why is?" "Ring off! That isn't the answer, either." "It's a better one than you've got."

"Don't you reckon I know whether it is or not?" asked the editor. "Well, she's like an umbrella because it isn't because she fades with age, is it?" "You ought to be ashamed of yourself."

"I am. Is it because you have to put up with it's cloudy and threatening—no, that can't be it. Because she's a good thing to have in the house. Why is?" "You're not within four counties of it."

"Because you can't find any pocket in either. Why is?" "No choice. Vote again. Vote again."

"I won't! A woman isn't like an umbrella. There is not the slightest resemblance. You go on with your work and let me alone."

"I knew you couldn't guess it. It's because she's accustomed to us having to wipe them on Democrats' handkerchiefs (as we can get no other here), and the now-called Democrats never do anything that is politically or otherwise clean. The only way that you can improve your town politically is to get some Smithvillians to move in. Some people are so crazy when they write for a paper that they wouldn't know their own sock from a maul sack if they were on a Christmas tree. Will you be good?"

Howard's Mill.

I am right in line again, "South Side."

Howard's Mill is soon to have a bridge.

John Barnes had a fine milch cow to die the 19th inst.

A life of pleasure is the most unpleasing life in the world.

Will Webb shipped eleven hds. of tobacco to the Cincinnati market.

F. McQuithy and son Thomas spent the day with your scribe Sunday.

Slate Creek has been past fording for some two or three days this past week.

The largest snow we have had this year fell the 19th and 20th of this month.

Some people are so bright you can't talk at them only through a smoked glass.

Miss Ella Green and sister Hattie spent the day with Mrs. G. B. Garrett one day last week.

The average wife-hunter would rather see a girl with a bread pan in her hand than a gutta.

Mrs. Helen Hinson and Mrs. Oda Orme were pleasant callers at Howard's Mill one day last week.

Owing to the bad weather there were only 69 votes polled at this precinct Friday, the primary election day.

McQuithy & Richards' blacksmith shop is doing a thriving business. Cheap work is what the boys want and they sure get it.

Do unto others as you wish to be done by them is a good rule. But it is this way in this little town: Do others, or they'll do you.

Mrs. Hannah Wells sold her property, consisting of twenty-five acres of land, a blacksmith shop, store and dwelling to Frank Brown for \$1,300.

Bud Smith is the most absent-minded man in the world. He was just getting over a tear when he went to a Mr. Sterling policeman and told him he hadn't been home in four or five days and he was looking for himself.

Alfred Richards is the champion fisherman. He has caught some two or three hundred this spring that measured three quarters to one inch and half. He says if his luck continues he will do nothing but fish the rest of the summer.

Well, yes, there are only three Republicans in Howard's Mill, it's true. I can't say that we Republicans are better or worse the town any. But will say what Democrats there are here like an egg: the more they are boiled the harder they get. Say, old friend, our noses being dirty is entirely due to us having to wipe them on Democrats' handkerchiefs (as we can get no other here), and the now-called Democrats never do anything that is politically or otherwise clean. The only way that you can improve your town politically is to get some Smithvillians to move in. Some people are so crazy when they write for a paper that they wouldn't know their own sock from a maul sack if they were on a Christmas tree. Will you be good?

Women will never take much real interest in politics as long as the campaign comes at the same time the magazines are all printing pictures of the styles that are going to be worn the next winter.

They say McKinley is losing his eye sight—going blind because of the dust and smoke from the innumerable factories that have started up since his wave of gold-standard prosperity struck the nation.

"West End" came to the conclusion that he was spitting his life away and quit chewing tobacco. Consequently he is gaining in weight and eats like a hog. He says he would particularly warn all boys who desire physical and muscular as well as mental energy who want to rise in the world to shun tobacco as a deadly poison.

GOOD FOR SOMETHING.—John Nichols, over in Nelson county, is feeding broom sedge to his sheep, horses, cattle and all kinds of stock. The broom sedge was cut when green and was well cured. Mr. Nichols intended to use it for bedding, but when he found that it was eaten by his stock in preference to Timothy he has used it as a feed. It broom-sedge will take the place of oats, hay, etc., farming would be a joy forever in some sections of the country. A fellow could just "lay back" and laugh at every day. —Larue County Herald.

Why don't you see Dr. Perry about your teeth?

We do best Job Work.

FARMERS,

You want the best Plows and Plow-Gearing.

VULCAN IS THE BEST CHILLED PLOW

VULCAN is the strongest and lightest running. VULCAN does the work easier and does it better. Try the VULCAN. If it don't suit you I will give you your money back. BRINLEY IS THE BEST STEEL PLOW. HALL'S HILLSIDE is the best for the land. BELL CENTER IS THE BEST DISC HARROW. It has out more disc than other Harrows and cuts out that cent-r ridge. My stock of Saddles, Harness, Collars, Hame Chains, Wagon Breaching, Check Lines, etc., is complete from the cheapest to the best Home Made. Come and see me and I will save you money.

SUCCESSOR TO PAXTON & DENTON.

J. L. HESS, FUNERAL DIRECTOR.

Keltz, the 12-year-old son of Lee Terrell, killed a mad-dog with a club while it was having a fit under the bed at his home one day last week. It snapped the boy on the hand, but, fortunately, didn't draw any blood. South Side will soon have to begin a dog-killing crusade, and canines and lope-eared hounds not having the proper brand or tag prominently displayed will pass away violently and suddenly. And the killing of them can't be begun any too quick. Dogs are becoming a burden to this man's town.

"Oh, the snow, the snow, the beautiful snow," says the poet. What has become of beautiful snow poets? This 19th of April they will surely bring some of this to. But what of this? On the 19th of May lacking one month of being seven years ago the people worked up to find the earth covered with snow. Perhaps the greatest rainfall of the season was that of last Thursday and Friday, which resulted in the largest freshet in two years. Friday afternoon it began sleeting and wound up with a ten-inch snow, to say nothing about what had already melted, and as a consequence bad weather and worse roads are the order of the day, and the farmers are a blue set of men, for last of April has come and little work done and from the present outlook with the ground so saturated with water no plowing can be done for days and weeks to come. No one has done any gardening, though at this time in the spring vegetables are usually advanced and all preliminary farm work has begun. Some of our political farmers say all this will cease and the world will jog along in the same old rut. Everybody thought it would only be a spring shower as in days of yore, but Noah knew better. And everybody learned to their sorrow that Noah was right. Brother read up. There's a bigger shower under the tent of 1901 than you ever saw. Poetesses with gold chains around their necks and a weariness of the silken eye lash which tells of midnight strivings with the ultimate and penultimate, and the Umphremag and the magnetic Agamemnon and the broom sedge was cut when green and was well cured. Mr. Nichols intended to use it for bedding, but when he found that it was eaten by his stock in preference to Timothy he has used it as a feed. It broom-sedge will take the place of oats, hay, etc., farming would be a joy forever in some sections of the country. A fellow could just "lay back" and laugh at every day. —Larue County Herald.
